Re: Medicare Reimbursement Charges

Dear Mr. Stein:

This letter is written to address the issue of the College's EMHP contribution concerning the Medicare Reimbursement component of the EMHP funding rate.

Funding rates for the Employee Health Insurance contributions include a Medicare Reimbursement component. The College has always paid their portion of the Medicare Reimbursement directly from their Budget. It was contemplated that in 2007 the County would pay both the County's and College's portion to correct this anomaly. As the employee benefits interface program is set to segregate these expenses between the County and College, it has been agreed that the College will continue to pay this expense directly from their own Budget.

To compensate for the College paying this expense both directly, and indirectly (through the EMHP funding rate), an adjustment should be made in the College's payment to EMHP. After the quarterly Medicare Reimbursement is made, the College should deduct that payment amount from their next monthly contribution to EMHP. The College has been paying between \$200,000 and \$250,000 per year for this expense.

I trust this is agreeable to you. This arrangement should continue until (or if) there is a future change in circumstances. If you have any concerns or questions, do not hesitate to give me a call.

Sincerely,

James P. Burt  
Chief Budget Examiner
